Milos Ilic

11000 Belgrade, Serbia • +381 69 5750087 • ilicdev49@gmail.com

iOS Developer with 2+ years of experience creating innovative and user-friendly applications using Swift and SwiftUI. Experienced in collaborating with cross-functional teams to define, design, and implement new features, ensuring high-quality software solutions. Strong background in delivering seamless and efficient mobile applications that exceed client expectations in both freelance and full-time roles. Passionate about continuous learning and staying up-to-date with the latest industry trends and technologies. Strong problem-solving skills, attention to detail, and a commitment to delivering excellent user experiences.

Experience

OCT 2023 – JULY 2024
iOS Developer & UI/UX Designer | NCR Voyix | Belgrade, Serbia

• Contributed to the development of iOS applications for PeiWei and Leeann Chin, specializing in Asian food ordering, enhancing customer engagement and order efficiency.
• Assisted in developing the Havana Savannah coffee delivery app, focusing on enhancing the user experience for coffee lovers and refining order processing.
• Assisted in implementing RESTful APIs to facilitate smooth data exchange between the app and server.
• Participated in thorough testing and debugging to ensure app performance and reliability.
• In addition to development, I also worked as a UI/UX design team member, assisting in the creation of user-friendly and visually appealing designs for the applications.
• Collaborated with cross-functional teams to align application features with business goals and user needs.

JULY 2023 – OCT 2023
iOS Developer | NCR Corporation | Belgrade, Serbia

• Played a key role in creating the "BSL" iOS application, a coffee ordering app showcased at a major event in New York, highlighting NCR's innovative capabilities in the food service industry.
• Updated an iPad application for Vallarta Supermarkets, enhancing the customer experience and streamlining employee tasks by transitioning from UIKit to SwiftUI and implementing CoreData.

Skills

Programming languages: **Swift**
Development software: **Xcode**
API Platform: **Postman**
Design software: **Figma**
UI Development: **SwiftUI, UIKit**
Version control: **GitHub**
Other tools and frameworks: **CoreData, CocoaPods, Firebase, FirebaseAuth, MapKit, ARKit**

Education

2019 - 2024
Bachelor of Science Information Technology - Software Engineering | Metropolitan University | Belgrade, Serbia

My Projects

Freelance Projects: Before joining NCR, I completed several freelance projects, including City Explore, Recipe List, Learning App, Tic Tac Toe, and Furniture App. These projects demonstrated my ability to work independently and deliver results that met or exceeded client expectations. Check my portfolio at ilicdev.com.

FitCats Project: I am currently developing an iOS application called "FitCats," which will soon be available on the App Store. FitCats tracks users' steps using the HealthAPI and features weekly ranking competitions. Users can earn weekly badges based on their progress, create leagues, invite friends to compete, and strive to be the most active walker. They can also earn achievements, view full statistics, and enhance their profiles to showcase their progress.
